

Regional Office of Education Christian-Montgomery Counties

Marchelle Kassebaum
Regional Superintendent

To: Roy Hertel, Montgomery County Board Chairman

From: Marchelle Kassebaum, Regional Superintendent of Schools

Date: May 29, 2014

Re: Fourth Quarter Report

I have attached the ROE #10 Quarter Report and the Spring/Summer edition of ROE Newsletter. The newsletter is designed to showcase the great things that are happening in our districts, to inform educators of events and programs, and to demonstrate how our office is in full collaboration with Montgomery and Christian Counties and Illinois State Board of Education in providing schools with "Best Service".

The Regional Office of Education staff continues to provide services, such as, professional development, health life safety and compliance visits, substance abuse prevention, licensure, and presentations to school board members and faculties. The C.A.R.E. youth advocates (Consistent Attendance Results in Excellence) continue to meet with at-risk students on a weekly basis and make home visits to maintain good communication with parents. The Birth to Three Parent Educators continue to provide their service to families throughout the region. At this time, the Birth to Three Program serves 51 families.

Regional Superintendent, Julie Wollerman and I continue to meet on a regular basis to ensure the consolidation of the offices is as seamless as possible. We are now collaborating in the delivery of school services in all five counties and planning a region wide teacher institute in the fall.

If you have any questions, please contact me or view our website at www.roe10.org. Thank you for your on-going support and interest in the ROE office.

Sincerely,

Marchelle Kassebaum

ELA Unit-Planning Boot Camps – Summer Session

Overview and Application of the Shifts and the EQiP Rubric

FOUNDATIONAL SERVICES FOR ALL - AT NO COST TO DISTRICTS

Audience: Teachers who are comfortable with the implementation of the New Illinois ELA Learning Standards (ELA CCSS) and who would like to strengthen existing units or create new ones

Who, When and Where: Register for one, two or three days – 6 CPDUs per day

Teachers for Grades K-2 June 10, 11, and 12, 2014 at LLCC/Taylorville campus; 8:30am-3:30pm

Teachers for Grades 3-5 June 16, 17, 18, 2014 at LLCC/Taylorville campus; 8:30am-3:30pm

Litchfield sessions will break-out by grade-level groups to separate rooms (Auditorium, A102, A107)

Teachers for Grades K-2 June 24, 25, 26, 2014 at LLCC/Litchfield campus in Auditorium; 8:30am-3:30pm

Teachers for Grades 3-5 June 24, 25, 26, 2014 at LLCC/Litchfield campus in A102; 8:30am-3:30pm

Teachers for Grades 6 -12 (ELA & Content Teachers) June 24, 25, 26, 2014 at LLCC/Litchfield campus in A-107
8:30am-3:30pm

Presenters: Brandi Bruley, Meg Dees, Lynne Newton, Natalie Epley and Dara Berner

Description:

Day One - Overview

- Review the ELA shifts in instructional practice.
- Look at many supplemental resources related to the ELA shifts.
- Share ideas on how to implement these shifts in your classroom.
- Learn about the EQiP Rubric and its value in designing exemplar multi-day lessons and units.
- Practice using the EQiP Rubric with extended lessons and units.
- Please bring a laptop, a unit with resources that you currently use for that unit OR some resources and materials you would like to use to create a new unit using the EQiP rubric to guide you.

Day Two and Day Three - Application of the Shifts and EQiP to your Units of Instruction

- Use a variety of new books, video clips, web sites and other resources.
- Preview exemplar units.
- Use an EQiP- aligned unit plan template or a template of your own.
- Collaborate with other teachers.
- Apply what you have learned to your own existing units or newly-created ones.
- Collaborate with trainers who can provide feedback on your units.
- Participation in the Day One Overview is required in order to participate in the Day Two and Day 3 sessions.

Registration limited to first 25 to register for each workshop

Lunch is on your own each day - Bring snacks and beverages to keep you going

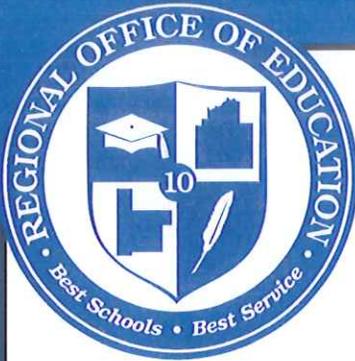

Register online by June 4, 2014, at www.roe10.org > Quick Links
Register for one day, two days or all three days. Questions? Contact Meg Dees

Spring-Summer 2014

Best Schools...Best Service!

Message from the Regional Superintendent

*Better than a thousand days of diligent study
is one day with a great educator!* Japanese Proverb

In the news we read about educational trends and issues that constantly challenge school districts. We read about funding (or lack of), state mandates, and implementation of standards and testing. These issues may be critical to school districts, but, at the end of the day, it's not the power of money...or mandate... or standards and testing that ultimately impact student learning...It's the power of a great educator!

I am cognizant of this every day I work with teachers, administrators, and support staff in the region. I have witnessed **great teachers** who motivate students to be problem solvers, critical thinkers, and risk takers and encourage them to reach their greatest potential. I have observed **great administrators** who lead in driving student achievement and promote high expectations for teaching and learning. I have watched **great support staff** go above and beyond in making sure all students feel safe, accepted and valued. It is the dedication of great educators who make the difference in a child's life.

Thanks to all of you for your commitment to excellence and allowing me to serve as your Regional Superintendent of Schools. Enjoy your well-deserved summer vacation!

*Regional Superintendent of Schools
Marchelle Kasselbaum*

Best Schools...

Best Services!

"It is our goal to provide teachers and administrators with best services to help students reach their greatest potential."

*In Fond Memory of Our
Friend and Colleague,*

Chad Langheim

*Chad will always be remembered
as an exceptional leader.
His passion and dedication to
serving students will not be
forgotten. We will miss him greatly!*

*Respectfully,
ROE Staff*

Assistant Regional Superintendent, Greg Patrick

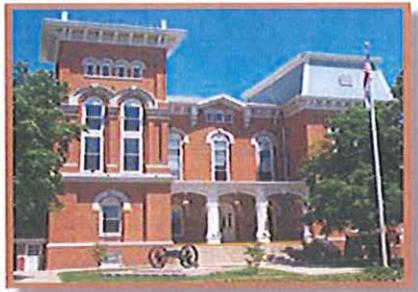

Greg Patrick's office is located at the Christian County Courthouse in Taylorville.

I have been on the job a little less than two years but I still continue to learn every day. I am fortunate to interact with very knowledgeable and experienced educators. Those educators include District Superintendents, Principals, and Teachers. Other educators from Regional Offices include other Regional Superintendents, Assistant Superintendents, Professional Development Coordinators, and Licensure staff. The State Board of Education is another organization I interact with frequently as I work in the areas of Health Life Safety and Licensure. I have discovered all of the above organizations are made up of individuals who are very professional and willing to help with questions and problems that we face on a daily basis.

My areas of focus as indicated above include but are not limited to: Health Life Safety, Professional Development, and Licensure. Health Life Safety is a year round process which includes inspections of every public school building in Christian and Montgomery Counties. I also work with districts on obtaining building amendments and permits. Professional Development includes a wide range of areas such as the New Illinois Learning Standards, Foundational Services, and Teacher Evaluation. I continue to present on the Danielson Teacher Evaluation Framework and look forward to many more opportunities in the months ahead. Licensure continues to be a challenge as we face many unanswered questions and programming glitches.

I enjoy all of my focus areas but most of all I enjoy helping educators in Christian and Montgomery ROE #10 with questions and problems they may need help with. Please call or come by if I can help in any way.

LEARNING EXPRESS

Helene Huber is saying farewell to the ROE after serving in various capacities for the past 35 years. Paula White is assuming the duties as Learning Express Director on July 1, 2014. Helene and Paula have been with the Learning Express since its start in FY 2000. The Learning Express is funded by ISBE and is a year-round home visiting program for at-risk families with children prenatal to age three.

CALL FOR PRESENTERS

The Regional Office of Education for Christian and Montgomery Counties will join the Regional Office of Education for Bond, Fayette, and Effingham Counties in planning a Professional Development Conference for Pre-K through grade 12 teachers and administrators to take place on Friday, October 10, 2014. Estimates indicate that over 1,300 professionals will be in attendance. Our goal is to host a variety of excellent presenters for the conference. If you would like to share your expertise, please submit a presentation proposal. Go to **Quick Links** on our website for more information: www.roe10.org

Brandi Bruley, Elementary School Principal of the Year

Horace Mann and the Illinois Principals Association have named Brandi Bruley, principal of North Elementary School in Taylorville, 2014-2015 Elementary School Principal of the Year. The award recognizes elementary school principals who have demonstrated a positive impact on their students and learning community. "Raising student achievement is always at the forefront of any administrator's agenda," Bruley said. "I have sought to bring better school-parent communication to our schools. Knowing that student achievement is closely linked to parent involvement, I have offered a variety of ways parents can participate in schools."

North Elementary School has earned the Illinois State Board of Education's Spotlight Award for the past three years and was the recipient of ISBE Honor Roll in 2013. This award recognizes North School as a high poverty, high performing school that is beating the odds by overcoming the achievement gap.

SCHOLAR BOWL STATE CHAMPIONS PLACE 4TH IN NATION

Congratulations to the Litchfield High School Scholastic Bowl team on their Class A State Scholastic Bowl championship trophy. On March 21 in Peoria, LHS defeated Lisle High School, a formidable opponent who had held the state title for two years, by a decisive final score of 330-100. While this was not the Scholastic Bowl team's first appearance at state competition, this was their first-ever state win. The team had a record of 78-11 and won several tournaments throughout the season. They also recently competed in the small school national tournament in Minneapolis, MN and placed 4th! Hats off to the Litchfield Scholastic Bowl Team!

Students Taking the Lead

Christian County Teen Prevention Summit

The third Christian County Teen Prevention Summit was held on Friday, April 4 at the Taylorville Memorial Hospital Auditorium. Speakers Randy Block from Operation Teen Safe Driving emphasized the importance of driving without distractions and Jennifer Russell from the University of Illinois Extension presented a session on the importance of "soft skills" during college, work or military interviews. Each of the five county high schools were represented by approximately 90 student leaders who shared activities that they participated in or organized during the school year to promote student involvement in their schools and communities.

The summit was sponsored by Taylorville Memorial Hospital, Christian County Prevention Coalition, Superintendent of Schools Marchelle Kassebaum and Christian County Sheriff Bruce Kettelkamp. Organized by Chris Boston from the Regional Office of Education's Substance Abuse Prevention Program.

Students Taking ACT Prep

Nokomis High School offered Saturday morning ACT test prep sessions for the first time. The junior students are wishing to maximize their potential on their reportable ACTs this spring.

Educator Licensure Information System Update

Illinois converted its Educator Certification System (ECS) to an Educator Licensure Information System (ELIS) as of July 1, 2013. ROE 10 has updated Licensure information on its website: www.roe10.org to reflect the changes listed on the Illinois State Board of Education website: www.isbe.net. Many issues associated with this conversion from certificates to licenses have arisen over the past months and will most certainly continue in the ensuing months. ROE 10 has tried to assist educators in groups and individually with these confusing issues.

The following information needs to be addressed now by educators in our region:

1. All Educators Need to Establish ELIS Account: administrators, teachers, and school service personnel with a PEL; substitute teachers with a substitute license; and TAS-N paraprofessionals with an ELS/PARA **need to establish an Educator License Information System (ELIS) account if you have not already done so.** This ELIS account is not the same as your previous ECS account that many of you used. **The following are the steps you should follow to establish an ELIS account if you have not done so since September, 2013:**

Go to www.isbe.net
Click on ELIS/Educator Credentials (tab under ISBE header)
Click on Educator Access link
Click on Former ECS Users Click Here for Access to the ELIS System link
Fill in required information
Create a login (not the one you used in ECS) and a password
Click on Continue to view information and if correct, click on submit

This should complete the process and take you to your ELIS account. The next time you want to access your ELIS account, you will only have to use your login and password.

2. All Educators Need to Review Their ELIS Account:

Check your "Expires" and "Registered through" Dates. These dates need to match. If your Expiration date is after your Registered through date, you owe additional registration fees to prevent your license from lapsing. Pay your registration fees to ROE 10 using your ELIS account and a credit or debit card.

Be sure you are registered in ROE 10. You will see two places on your credentials page that show which ROE you are registered in (one on the license line at the top of the page and one in the registration section at the bottom of the page). At least one of these should say ROE 10. Check your endorsements which should have carried over from ECS.

Update your personal information which includes your e-mail address, phone number, and address. Name changes need to be done through ROE 10.

3. License Renewal for Those Educators whose License Renewal and/or Registration is June 30, 2014:

All "currently active in school districts" educators (all were teachers and school service personnel) in ROE 10 whose license renewal and/or registration is due June 30, 2014, should have been notified in October, 2013, with information relevant to their renewal and/or registration. Meetings have already been held with these teachers in Hillsboro CUSD #3, Taylorville CUSD #3, Litchfield CUSD #12, Pana CUSD #8 and Nokomis CUSD # 22.

Any teacher with a renewal and/or registration date of June 30, 2014, from Morrisonville CUSD #1, Edinburg CUSD #4, and Panhandle CUSD #2 can contact Marsha Blackman at mblackman@roe10.org or 217/553-8865 to ask questions or to schedule a meeting. Teachers from these 3 districts were also notified in October that their renewal and/or registration was due this coming June 30, 2014.

4. License Renewal for Those Educators whose License Renewal and/or Registration is June 30, 2015 or Later:

The State Legislature passed a new License Renewal Bill this past fall which will go into effect as of July 1, 2014. Although the law has been passed and signed by the Governor, the rules and regulations are being formulated by ISBE currently. As soon as these rules and regulations are completed, ROE 10 will send information to all districts for their educators. One part of this new law that did not change from the previous Certificate Renewal Law is that educators will have to enter their professional development in what is now the ELIS system. It was thought at one time that the new Licensure Renewal Law would eliminate this requirement, but it did not. ROE 10 recommends that educators who will renew their license by June 30, 2015 or after, need to enter any new professional development that they did not enter in ECS by August 31, 2014. (All professional development that was entered in ECS should show in your ELIS account under "educator - professional development"). The ELIS system was not initially designed for long term professional development entries. This professional development part of ELIS should be redesigned to better accommodate professional development entries by educators as of July 1, 2014. It is the educators' choice whether to use the current ELIS PD entry system or to wait until after July 1, 2014 and use the enhanced ELIS PD entry system. Our current information dictates that all professional development not currently entered in the ELIS PD system must be entered no later than August 31, 2014. Of course, this is your decision as an educator. We are just trying to make our educators aware that if they do not enter the PD earned prior to August 31, 2014, there is a slight chance they may not be able to use it. We will not know this for sure until the rules and regulations for the new law are completed, and this may be after that date.

If you have any other questions, please e-mail Marsha Blackman at mblackman@roe10.org or call at 217/553-8865. Questions may also be directed to Greg Patrick at gpatrick@roe10.org or at 217/824-4730, Monica Millburg at mmillburg@roe10.org or at 217/532-9591 or Sandra Johnson at sjohnson@roe10.org or at 217/824-4730.

Hillsboro Students Engage In Collaborative Projects

Linda McCoy, Instructor

Each year the Multimedia IV students complete a collaborative project with Mrs. Jackie Everett's third grade class at Beckemeyer Elementary School. The high school students work with the third graders to create a video podcast about their community.

The Multimedia IV students were asked by executives of National Bank to create a video presentation of the construction process of their new bank headquarters in downtown Hillsboro. The presentation was shown during the bank's open house ceremony.

Investing In The Future

"Investing in the Future: A Regional Gathering of Education Professionals" began in 2012 as a series of professional development and dinner events for first and second year teachers. Most recently, at the suggestion of the teachers who had attended previous new-teacher gatherings, the invitation went out to all educators from the area. The theme for the fifth event held in February at Mid-State Special Education Center in Morrisonville was "Those Who Can, Teach." Linda Brissenden, a lifelong educator and award winner, energized her teaching peers with this message: "Teaching is a calling, and those who do it well have a passion for educating students that is obvious and contagious." Using examples from

over 40 years of her own experiences with students, Linda Brissenden inspired teachers to commit to helping students achieve – "and when you do, you know you were a catalyst in making students' lives better. It doesn't get any better than this!"

Funding for the 2013 - 2014 series was provided, in part, by these generous community partners: Bank and Trust (Litchfield and Raymond), First Community Bank of Hillsboro, First National Bank (Litchfield), First National Bank (Raymond, Girard, Morrisonville, Pawnee, Virden), Litchfield National Bank (Litchfield), National Bank (Hillsboro), Peoples Bank & Trust (Pana), and Taylorville Community Credit Union (Taylorville). Our gratitude is also extended to Mid-State Special Education Center for the use of your meeting room.
