**August 2015 Report**

**2015 Assessment**

We have received Assessor Book back from all but two Assessors at this time both are still working on changes and are to will be complete soon. We are still working on Grisham, Walshville & east Fork. We have entered the changes for most of the townships and will continue as we get them back.

**2015 BOARD OF REVIEW**

The Board of Review have signed the completed Certificates of Error we will have more come in as we get closer to second installment date. We have received about 10 complaints at this time.

**Exemptions**

Reminder post cards have been printed and will be mailed the week of August 10. We are still waiting for the Governor to sign the bill changing the Disabled Veterans Exemptions and for revisions to the existing applications from DOR.

**Miscellaneous**

I have contact DevNet about some issues with the contract renewal and I am waiting for a revised contract with the changes. I also spoke to them about loading our data on a laptop or tablet for Miles and the BOR to use in the field.

### **GIS**

I received the copy of the service contract for the Oce' printer and have scheduled a preventive maintenance appointment.

Greg Machaud has requested an update to the tornado map for the mitigation plan that Cassidy will be updating that.

We met with Greg Nimmo to work on updating the 911 books. Greg had spoken with Colin Russell at Bruce Harris and suggested we contact him for ideas. I talked to Colin and he was going to look at what he had done with this before and will get back to me. I spoke to Bob Lentz from Farm Bureau about their 2017 plat book they would like to put 911 information in the plat book. 2017 is the 100<sup>th</sup> anniversary for the Montgomery County Farm Bureau.

### **Pictometry**

The new flyover data has been added to the website there was a problem with the data that Trent Pell had copied I had Cassidy copy the data and it was mailed to Beacon.

I am still waiting to hear from the trainer as to when we will schedule additional training but no dates at this time.

### **Beacon Schneider**

I have spoken with Beacon about adding the advertising on the website as well as John Galer. John will be ready to work on this in August and will work the support people with Beacon Schneider to get this started.

There have been some changes to the Beacon and we have been using the new site for about a month to review and have requested a few changes that have been made they will switch to the new site August 20.
