July 17, 2017 Montgomery Co. Board Notified of Application	August 14, 2017 Notice of Public Meeting Published in local newspaper		

Siting Criteria

1. Whether registration and livestock waste management plan certification requirements, if required, are met by the notice of intent to construct.
2. Whether the design, location or proposed operation will protect the environment by being consistent with this Act.

Siting Criteria

3. Whether the location minimizes any incompatibility with the surrounding area's character by being located in any area zoned for agriculture where the county has zoning or where the county is not zoned, the setback requirements established by this Act are complied with.

Siting Criteria

4. Whether the facility is located within a 100-year floodplain or an otherwise environmentally sensitive area (defined as an area of karst area or with aquifer material within 5 feet of the bottom of the livestock waste handling facility) and whether construction standards set forth in the notice of intent to construct are consistent with the goal of protecting the safety of the area.

Siting Criteria

5. Whether the owner or operator has submitted plans for operation that minimize the likelihood of any environmental damage to the surrounding area from spills, runoff and leaching.

Siting Criteria

6. Whether odor control plans are reasonable and incorporate reasonable or innovative odor reduction technologies given the current state of such technologies.
7. Whether traffic patterns minimize the effect on existing traffic flows.

Siting Criteria

8. Whether construction or modification of a new facility is consistent with existing community growth, tourism, recreation or economic development or with specific projects involving community growth, tourism, recreation or economic development that have been identified by government action for development or operation within one year through compliance with applicable zoning and setback requirements for populated areas established by this Act.
