GEOTECHNICAL AND CONSTRUCTION MATERIALS ENGINEERING

**WHAT DOES YOUR CHILD LOVE TO DO?**

Think hard. Because connecting her passion to nutrient-rich foods is one great way to encourage healthy eating habits in your child. It's just a little trick that determined, inventive moms across America are using to help raise healthy kids. See how you can inspire your child to eat right and exercise sixty minutes a day to letsmove.gov. The little things we do today can ensure a generation of healthy kids tomorrow.

nada,  
zip,  
zilch

(What most kids know about preparing for college.)

Without the help of an adult, it may be confusing for students to find their way to college. If you know a student with dreams of a higher education, do your part and help lead the way. Learn how at...

Take the First Step to a Heart-Healthy Life.

**Start! Walking. Start! Something.**

Heart disease is the number one killer of men and women in America. But did you know that just 30 minutes a day of physical activity can improve your health and decrease your risk of heart disease?

An easy way to work physical activity into your regular routine is to start walking. For every single hour of regular, vigorous exercise, you can add two hours to your life expectancy.

It's easy to Start! whether you're by yourself or with friends, family and co-workers. You'll all feel a difference and live longer, heart-healthier lives.

Join the movement.

Believe In Tomorrow™  
National Children's Foundation

92% reaches the kids. 100% reaches your heart.

When 92% of each dollar goes directly to programs, you are making some child's life more bearable.

When you take their minds off pain and refocus it on adventure, they suddenly realize there's more to life than illness.

When you help build, donate or equip retreat and hospital housing for these children, you speed their recovery and restore some sense of normalcy to shattered families.

**When kids believe in tomorrow they are that much closer to having one.**

**Make believing possible.

Defending dignity.  
Fighting poverty.

I am powerful

At CARE, we've found that the poorest parts of the world are, invariably, places where women are still marginalized and not allowed a significant role.

That's why CARE today has embarked on a mission of global women's empowerment. To educate girls, and provide opportunities that will unleash the power women have to bring change to these areas.

But often, we have to be creative in how we do that. Loki, who lives in a remote Ethiopian village, has big dreams. But she also has to tend her family's herd of cattle and goats. If not, her family will suffer. She often walks 20 miles a day in search of water and grasslands. So rather than bring Loki to school, we bring school to Loki. We're establishing schoolrooms in nomadic villages that offer flexible hours, and move as the village moves.

Someday soon, girls like Loki will do remarkable things in Ethiopia. We'll keep finding ways to open the doors.

We're trying to create a world where every person has the opportunity to realize their potential. Because, in the end, that's the key to truly ending injustice and poverty.

**SHE HAS**  
the **POWER**  
to change her world.

**YOU HAVE**  
the **POWER**  
to help her do it.

## Save Money. Smell the Flowers.

Looking for ways to save money on gas and help the environment? The EPA wants to share some smart driving tips that could give you more miles per gallon of gas and reduce air pollution. Tips like making sure your tires are properly inflated and replacing your air filter regularly. And where possible, accelerate and brake slowly. Be aware of your speed...did you know that for every 5 miles you go over 65 mph, you're spending about 20 cents more per gallon of gas? If you're shopping for a new car, choose the cleanest, most efficient vehicle that meets your needs. If we each adopt just one of these tips, we'd get more miles for our money and it would be a little easier to smell the flowers. For more tips and to compare cleaner, more efficient vehicles, visit [www.epa.gov/greenvehicles](http://www.epa.gov/greenvehicles).
