Hugh went over some information he received from Hillsboro Area Hospital. They are discontinuing their psychiatric services as of 8/31/23. Environmental Health Report  
Cyndy Howard

Food - Reno's on the Road, a food truck from Carlinville, CEFS Head Start in Litchfield, The Lodge on Main in Hillsboro, and Walker Farms in Litchfield have been issued new permits. The Ice Box, a food truck in Hillsboro, and Whisky Throttle in Taylor Springs have changed ownership.

One Administrative Hearing was necessary for EJ's Bistro in Litchfield. Their operating permit was suspended for having more than 3 Risk Factors on their routine inspection.

Anthony is working on Standardization with an FDA Standard as required to meet Standard 2. MCHD had previously met this standard however Illinois was without a Standardization Officer for a period of years, so new and renewal standardizations where not possible.

HealthSpace software development is finally complete. A link is available on our website which enables inspection reports to be viewed as soon as they are completed and uploaded. HSpay which allows for credit and debit payments is also complete and we are in a testing phase for a few months to ensure everything is working correctly. We are transitioning to support instead of development.

Lead - CLEAR-Win grant funding has been significantly increased for FY 24 and 25. This increase will allow us to fund lead remediation not only for our county, but for surrounding counties as well. Currently working on our first project in Alton, IL.

Vector - Mosquito testing has stopped for this year. Two positive mosquito samples were found in Nokomis for 2023. No human cases were found so far for Montgomery County.

A new voluntary program has been added to our vector grant to collect, identify and test ticks within our county. We will attempt to do some collection this fall, but primarily FY 24 activities will occur in the spring.

## Maternal Child Health October 2023 Board of Health Report

WIC and FCM Disaster Plans both expired in August and all participants are being seen face to face in office. Home visits have resumed.

The Litchfield office recently moved to its new location, but remains closed at this time. Litchfield participants are currently being seen at the Hillsboro location. Ann Estes, MCHD's Litchfield RN, recently resigned and we are now seeking a new nurse. Job postings are active on Indeed and on the MCHD Facebook and website pages. The WIC and FCM programs both require a RN.

WIC staff recently completed school vaccinations. Staff attended the Hillsboro and Litchfield Back to School Bashes. We continue to offer vaccines, by appointment or walk-in, Monday-Friday. We now provide the new ACIP recommended Prevnar 20 to all eligible participants. COVID and RSV vaccines will also be available through the VFC program. WIC staff administered 1239 vaccines during the months of July, August and September.

WIC staff collected 140 capillary lead samples in the last quarter. Our agency currently has 14 open lead cases, venous levels above 5. We had 3 new open cases this quarter and three were closed. One Environmental Health investigation was completed.

To clarify from the last Board of Health meeting in July, 28 active WIC infants were born in the months of July, August and September 2023. Including both sites, 12 of those 28 infants were exposed to cannabis in utero and are enrolled in the APORS (Adverse Pregnancy Outcome Reporting System) program. That is a 42.85% exposure rate last quarter.

Breastfeeding education and support continue. Active participants, who are either partially or exclusively breastfeeding, rates are 38.1% in Hillsboro and 27.1% in Litchfield.

Thank you,
