GIS-

-Full GIS report attached.

Farmland Complaints:

We have received numerous complaints regarding farmland tax bills; I know many board members have received calls as well regarding this. I would like to shed some light on the farmland assessment process, values are certified by the Illinois Department of Revenue and property owners cannot file complaints on the certified values at the county level. I have included the 2023 certified values I received from the state as well as the 2024 and 2025 values. The current 2023 values are also available for the public on our website as well as through the Illinois Department of Revenue. Please take note that the values will continue to rise even higher, unfortunately there is nothing I can do at the county level regarding this.

Field Work:

My staff continues to do field work collecting 2024 assessment data. I am talking with IT about the possibility of getting a tablet to assist us with field work. We currently sketch and take measurements in the field then come back into the office and sketch and input notes into the system. With a tablet we would not have to be repetitive. Curt has said it is possible so I will be in talks with him regarding prices and different options to see if this is something I could budget for 2025.

SB3275:

Bill requiring all Real Estate Transfer Declarations to be electronic (MyDec), passed both houses on May 17th.

Solar/Wind Farm Requirements:

Statute 35 ILCS 200/10-740 lays out requirements that must be taken for all solar and wind farms on leased land. Document attached showing steps that must be taken prior to any structural improvement permit can be submitted.

Old Vehicle:

Now that we have our Ford Explorer street legal I was wondering what the county would want to do with the red truck we were using previously. Initially the plan

was for the Sheriff's Office to use it as a trade in, after speaking with Tyson I'm not sure if that is still the case.

Change of address forms:

I am making changes to our office policy that will require all address change requests to be completed on a form that is available in our office and on our website. We are no longer allowing address changes to be made over the phone. Beginning in 2025 any name and address changes will only be granted when requested by the property owner, POA, or trustee per statute 35 ILCS 200/20-20. I will be contacting IT to update this information when we implement this in my office.

Montgomery County GIS

New Projects:

- Update and add to Montgomery County cemetery location, ownership, and maintenance contact data. Update to online map will be made when time permits.
- Correct boundary data for Bremer Wildlife Sanctuary.

Ongoing Projects:

- Using ArcPro, created initial series of GIS maps of warning sirens across the county to help establish gaps, overlaps, and sirens in need of repair. Preparing to generate new maps to adjust existing sirens and add new proposed siren locations to most efficiently maximize coverage based on municipal feedback.
- Crosscheck of records in PIN generation software against property parcel records to locate improperly recorded/notated PINS. This has given me a chance to learn more about how to utilize Laredo, filling in significant gaps in my knowledge.
- Solar/wind project inventory and mapping updated with new projects.

Completed:

- Second series of ArcPro training workshops completed.

On the Back Burner:

- Crosscheck of revised Land Use data against existing records.
- Continuing search for annexation/municipal boundary verification documents across the county. I currently can only fully verify the borders of Waggoner, Ohlman, and Coalton. Ideally, I would like to have fully verified borders of all the municipalities in Montgomery County.

Concerns:

- Within the past year, I've been getting increasing requests to pay Plat Act Affidavit fees by debit card. Is there an estimate for when we'll start to have that capability?

As always, mapwork continues apace.

Illinois Department of Revenue

April 29, 2024

Certification of Assessment Year 2025 Farmland Values

The assessment year 2025 department-certified equalized assessed value (EAV) for each soil productivity index (PI) is on Page 2 of this certification. The certified values have been adjusted by the Farmland Assessment Technical Advisory Board to limit the annual change to 10 percent from the preceding year's median soil productivity index certified assessed value.¹

- **Cropland** must be assessed at the full amount of the certified EAV that corresponds to its debased PI, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2025, \$126.34/acre);
- **Permanent pasture** must be valued at one-third of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2025, \$126.34/acre);
- **Other farmland** must be valued at one-sixth of its PI EAV as cropland, but no lower than 1/6 the value of the lowest PI certified (*i.e.*, for assessment year 2025, \$63.19/acre).²

Please see Publication 122, Instructions for Farmland Assessments, for additional information about the proper assessment of farmland. This publication is available on our web site at tax.illinois.gov.

The proposed average EAV by county per acre of cropland and the proposed average EAV per acre of all farmland by county is attached. Proposed averages are not used in the assessment process and should not be used by taxing districts as a basis for determining budget requests.

If you have any questions regarding this material, please feel free to contact the Property Tax Division at (217) 785-1356 or email us at Rev.PropertyTax@illinois.gov.

*Cook & DuPage county only reported cropland data

Calculating the EAV for cropland that has a PI below the lowest PI certified by IDOR

Beginning in 2006, the lowest PI certified by the department is a PI of 82 (previously 60). Although the lowest certified PI has changed, the procedure used to calculate the equalized assessed value for soil that has a PI below the lowest certified PI remains the same.

- Cropland is assessed at the full amount of the certified EAV corresponding to its debased PI, but no lower than 1/3 of the value for the lowest PI certified.
- Permanent pasture is assessed at 1/3 of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified.
- Other farmland is assessed at 1/6 of its debased PI EAV as cropland, but no lower than 1/6 of the value for the lowest PI certified.

Steps to assess cropland with a PI below lowest certified PI

- Step 1** Subtract the EAV of the lowest certified PI from the EAV for a PI that is five PIs greater.
- Step 2** Divide the result of Step 1 by 5. The result is the average EAV reduction per PI point for the 5 lowest certified PIs.
- Step 3** Subtract the PI of the cropland being assessed from the lowest PI for which the department certified a cropland EAV.
- Step 4** Multiply the result of Step 2 by the result of Step 3.
- Step 5** Subtract the result of Step 4 from the lowest EAV for cropland certified by the department.
- Step 6** The EAV of the cropland being assessed will either be the result of Step 5 or 1/3 of the EAV of cropland for the lowest certified PI, whichever is **greater**.

Assessment year 2025 example

Lowest certified PI is 82; 2025 certified value for a PI of 82 is \$379.06.

Example cropland PI is 79.

Step 1	EAV for PI of 87	\$387.24
	EAV for PI of 82	<u>- 379.06</u>
		\$ 8.18

Step 4	Result from Step 2	\$ 1.64
	Result from Step 3	<u>x 3</u>
		\$ 4.92

Step 2 \$8.18 divided by 5 = \$1.64 average per PI point.

Step 5	Lowest certified PI EAV	\$ 379.06
	Result from Step 4	<u>- 4.92</u>
	EAV for PI of 79	\$ 374.14

Step 3	Lowest PI certified	82
	Cropland PI	<u>- 79</u>
	Number of points	3

Step 6	Greater of a or b below	
	a Result from Step 5	\$ 374.14
	b 1/3 of \$379.06	\$ 126.34
	(lowest EAV certified)	

The EAV for a cropland soil with a PI of 79 is \$374.14

Illinois Department of Revenue

April 25, 2023

Certification of Assessment Year 2024 Farmland Values

The assessment year 2024 department-certified equalized assessed value (EAV) for each soil productivity index (PI) is on Page 2 of this certification. The certified values have been adjusted by the Farmland Assessment Technical Advisory Board to limit the annual change to 10 percent from the preceding year's median soil productivity index certified assessed value.¹

- **Cropland** must be assessed at the full amount of the certified EAV that corresponds to its debased PI, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2024, \$109.16/acre);
- **Permanent pasture** must be valued at one-third of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2024, \$109.16/acre);
- **Other farmland** must be valued at one-sixth of its PI EAV as cropland, but no lower than 1/6 the value of the lowest PI certified (*i.e.*, for assessment year 2024, \$54.59/acre).²

Please see Publication 122, Instructions for Farmland Assessments, for additional information about the proper assessment of farmland. This publication is available on our web site at tax.illinois.gov.

The proposed average EAV by county per acre of cropland and the proposed average EAV per acre of all farmland by county is attached. Proposed averages are not used in the assessment process and should not be used by taxing districts as a basis for determining budget requests.

If you have any questions regarding this material, please feel free to contact the Property Tax Division at (217) 785-1356 or email us at Rev.PropertyTax@illinois.gov.

Calculating the EAV for cropland that has a PI below the lowest PI certified by IDOR

Beginning in 2006, the lowest PI certified by the department is a PI of 82 (previously 60). Although the lowest certified PI has changed, the procedure used to calculate the equalized assessed value for soil that has a PI below the lowest certified PI remains the same.

- Cropland is assessed at the full amount of the certified EAV corresponding to its debased PI, but no lower than 1/3 of the value for the lowest PI certified.
- Permanent pasture is assessed at 1/3 of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified.
- Other farmland is assessed at 1/6 of its debased PI EAV as cropland, but no lower than 1/6 of the value for the lowest PI certified.

Steps to assess cropland with a PI below lowest certified PI

- Step 1** Subtract the EAV of the lowest certified PI from the EAV for a PI that is five PIs greater.
- Step 2** Divide the result of Step 1 by 5. The result is the average EAV reduction per PI point for the 5 lowest certified PIs.
- Step 3** Subtract the PI of the cropland being assessed from the lowest PI for which the department certified a cropland EAV.
- Step 4** Multiply the result of Step 2 by the result of Step 3.
- Step 5** Subtract the result of Step 4 from the lowest EAV for cropland certified by the department.
- Step 6** The EAV of the cropland being assessed will either be the result of Step 5 or 1/3 of the EAV of cropland for the lowest certified PI, whichever is **greater**.

Assessment year 2024 example

Lowest certified PI is 82; 2024 certified value for a PI of 82 is \$327.50.

Example cropland PI is 79.

Step 1	EAV for PI of 87	\$335.68
	EAV for PI of 82	<u>- 327.50</u>
		\$ 8.18

Step 2 \$8.18 divided by 5 = \$1.64 average per PI point.

Step 3	Lowest PI certified	82
	Cropland PI	<u>- 79</u>
	Number of points	3

Step 4	Result from Step 2	\$ 1.64
	Result from Step 3	<u>x 3</u>
		\$ 4.92

Step 5	Lowest certified PI EAV	\$ 327.50
	Result from Step 4	<u>- 4.92</u>
	EAV for PI of 79	\$ 322.58

Step 6	Greater of a or b below	
	a Result from Step 5	\$ 322.58
	b 1/3 of \$327.50	\$ 109.16
	(lowest EAV certified)	

The EAV for a cropland soil with a PI of 79 is \$322.58

Illinois Department of Revenue

April 19, 2022

Certification of Assessment Year 2023 Farmland Values

The assessment year 2023 department-certified equalized assessed value (EAV) for each soil productivity index (PI) is on Page 2 of this certification. The certified values have been adjusted by the Farmland Assessment Technical Advisory Board to limit the annual change to 10 percent from the preceding year's median soil productivity index certified assessed value.¹

- **Cropland** must be assessed at the full amount of the certified EAV that corresponds to its debased PI, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2023, \$93.53/acre);
- **Permanent pasture** must be valued at one-third of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2023, \$93.53/acre);
- **Other farmland** must be valued at one-sixth of its PI EAV as cropland, but no lower than 1/6 the value of the lowest PI certified (*i.e.*, for assessment year 2023, \$46.78/acre).²

Please see Publication 122, Instructions for Farmland Assessments, for additional information about the proper assessment of farmland. This publication is available on our web site at tax.illinois.gov.

The proposed average EAV by county per acre of cropland and the proposed average EAV per acre of all farmland by county is attached. Proposed averages are not used in the assessment process and should not be used by taxing districts as a basis for determining budget requests.

If you have any questions regarding this material, please feel free to contact the Property Tax Division at (217) 785-1356 or email us at Rev.PropertyTax@illinois.gov.

The 5-year capitalization rate is 4.62 percent.

10% Increase of 2022 certified value at PI 111 is \$42.61

* These values reflect the Statutory changes to 35 ILCS 200/10-115e under Public Act 98-0109.

*Farmland values are as certified by the Farmland Assessment Technical Advisory Board. Any differences in calculations are due to rounding at different stages of calculations.

Calculating the EAV for cropland that has a PI below the lowest PI certified by IDOR

Beginning in 2006, the lowest PI certified by the department is a PI of 82 (previously 60). Although the lowest certified PI has changed, the procedure used to calculate the equalized assessed value for soil that has a PI below the lowest certified PI remains the same.

- Cropland is assessed at the full amount of the certified EAV corresponding to its debased PI, but no lower than 1/3 of the value for the lowest PI certified.
- Permanent pasture is assessed at 1/3 of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified.
- Other farmland is assessed at 1/6 of its debased PI EAV as cropland, but no lower than 1/6 of the value for the lowest PI certified.

Steps to assess cropland with a PI below lowest certified PI

- Step 1** Subtract the EAV of the lowest certified PI from the EAV for a PI that is five PIs greater.
- Step 2** Divide the result of Step 1 by 5. The result is the average EAV reduction per PI point for the 5 lowest certified PIs.
- Step 3** Subtract the PI of the cropland being assessed from the lowest PI for which the department certified a cropland EAV.
- Step 4** Multiply the result of Step 2 by the result of Step 3.
- Step 5** Subtract the result of Step 4 from the lowest EAV for cropland certified by the department.
- Step 6** The EAV of the cropland being assessed will either be the result of Step 5 or 1/3 of the EAV of cropland for the lowest certified PI, whichever is **greater**.

Assessment year 2023 example

Lowest certified PI is 82; 2023 certified value for a PI of 82 is \$280.63.

Example cropland PI is 79.

Step 1	EAV for PI of 87	\$288.81
	EAV for PI of 82	<u>- 280.63</u>
		\$ 8.18

Step 4	Result from Step 2	\$ 1.64
	Result from Step 3	<u>x 3</u>
		\$ 4.92

Step 2 \$8.18 divided by 5 = \$1.64 average per PI point.

Step 5	Lowest certified PI EAV	\$ 280.63
	Result from Step 4	<u>- 4.92</u>
	EAV for PI of 79	\$ 275.71

Step 3	Lowest PI certified	82
	Cropland PI	<u>- 79</u>
	Number of points	3

Step 6	Greater of a or b below	
	a Result from Step 5	\$ 275.71
	b 1/3 of \$280.63	\$ 93.53
	(lowest EAV certified)	

The EAV for a cropland soil with a PI of 79 is \$275.71

Illinois Department of Revenue

April 29, 2013

Certification of Assessment Year 2014 Farmland Values

The assessment year 2014 department-certified equalized assessed value (EAV) for each soil productivity index (PI) is on Page 2 of this certification. The certified values have been adjusted by the Farmland Assessment Technical Advisory Board to limit the annual change to 10 percent.¹

- **Cropland** must be assessed at the full amount of the certified EAV that corresponds to its debased PI, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2014, \$5.08/acre);
- **Permanent pasture** must be valued at one-third of its debased PI EAV as cropland, but no lower than 1/3 of the value for the lowest PI certified (*i.e.*, for assessment year 2014, \$5.08/acre);
- **Other farmland** must be valued at one-sixth of its PI EAV as cropland, but no lower than 1/6 the value of the lowest PI certified (*i.e.*, for assessment year 2014, \$2.54/acre).²

Please see Publication 122, Farmland Implementation Guidelines, for additional information about the proper assessment of farmland. This publication is available on our web site at tax.illinois.gov.

The proposed average EAV by county per acre of cropland and the proposed average EAV per acre of all farmland by county is on Page 3. Proposed averages are not used in the assessment process and should not be used by taxing districts as a basis for determining budget requests.

¹ See Illinois Property Tax Code, 35 ILCS 200/10-115, paragraph (e)

(35 ILCS 200/20-20)

Sec. 20-20. Changes in address for mailing tax bill.

(a) To insure that a person requesting a change of the address to which a property tax bill is sent has a legal interest in the property or authority to act on behalf of the owner of the property, the county collector in every county with less than 3,000,000 inhabitants or less shall establish and enforce a procedure for requiring identification or certification of the identity of taxpayers who request a change in the address to which their tax bill is mailed. No change of address shall be implemented unless the person requesting the change is the owner of the property, a trustee or a person holding the power of attorney from the owner or trustee of the property. However, if a property owner conveys a permanent change of address in writing to the United States Postal Service, then, on or after the effective date of that change of address, the county collector may mail a property tax bill to the property owner at his or her new address regardless of whether or not the owner notifies the collector of the address change.

(b) As an alternative to mailing a copy of the bill, the collector may send the tax bill via e-mail at the request of the taxpayer, subject to the provisions of subsection (b) of Section 20-5 of this Act. If the taxpayer makes such a request, then the taxpayer shall notify the collector of any change in his or her e-mail address as soon as possible after the address is changed.

Report for May, 2024
June Meeting, June 3, 2024

1. Monthly activities:

- Outreach Nokomis Rehabilitation Center
- Attended Bushue Meeting New County HR Firm

2. Veterans Service / Case Load:

- a. Referrals = 48
- b. Client contacts = 98
- c. Phone contacts = 200

d. Claims paid total =

	Category	Month	YTD
1	Transportation	0	20.00
0	Heating Fuel	0	0
1	Food	0	202.62
0	Utilities	0	0
0	Shelter	0	0
0	Water/Sewer	0	0
	Total	0	222.62

- e. Assistance with forms/applications = 58
- f. New clients Assistance 11
- g. Cell Phones for Soldiers Collected 0
