December 1, 2025

We spent November going over assessment changes with Stan to ensure everything looked accurate and we would be able to answer any questions by tax payers on their assessment.

Our office worked on balancing the abstract before applying the equalization factor to ultimately send to the Journal for publication. A township factor of 1.0693 was applied to all townships.

We published assessment changes in the newspaper on December 4th, making the Board of Review deadline January 5th of 2026. We sent out over 550 assessment changes.

We have a Township Assessor meeting scheduled December 15 and a Board of Review meeting scheduled for January 9, 2026.

Report for November 2025

Dear Montgomery County Leaders,

November proved to be productive for the Montgomery County Assessment Office. Field work, delayed due to Township Assessor resignations, was successfully documented, valued, and assessed. This comprehensive "catch up" initiative was accomplished through the collaborative efforts of the entire office and Stan Jenkins, ensuring these updates were incorporated into the 2025 assessment cycle and preventing issues related to omitted properties or corrections of errors.

The first official "Tax Cycle Meeting" took place on November 5. Department heads and key staff from the Clerk, Treasurer, and Assessment Offices met with the County Administrator and PETA representatives for this informational session. Six additional meetings are scheduled throughout 2026 at pivotal stages in the 2025 pay 2026 tax cycle. This initiative is anticipated to enhance resource utilization and offers opportunities for troubleshooting and streamlining tax processes.

Supervisor of Assessments Tysha Mullen, together with key staff member Michaela Gray, acquired proficiency in the Devnet taxing system to manage some of the most technically complex aspects of the tax cycle. Their responsibilities included importing detailed farm data from alternative databases, applying equalization factors, preparing files for the 2025 publication, printing assessment change notices, generating and balancing the 280 Abstract, and establishing the Board of Review's appeal schedule.

Staff members Lucas and Jamie provided valuable support by identifying issues through exception reports and developing solutions. Overall, November was a productive and successful month for Montgomery County.

Respectfully submitted,

Gary Twist, Property Evaluation and Tax Advisors
